o Consultation <i>notified body</i> – variation	21.504,24 €
Borderline product	18.439,70 €

* one year for COVID medicinal products

Payment

From 1 October 2021, the FAMHP uses a new invoicing method for requests for national STA type I, II and III that are managed by the unit National Innovation Office and Scientific-Technical Advice.

Specifically, this means that requesters do no longer pay a fee when introducing the request for advice. Instead, they pay based on the invoice sent by the Budget and Management control division of the FAMHP. With each payment, the structured communication on the invoice must be mentioned, allowing us to link the payment with the correct invoice, even if a third party makes the payment. Without structured communication the invoice will be considered as unpaid.

About the procedure

1. **Each quarter** the company receives an invoice for all requests for national STA that were submitted in the past quarter.
2. The invoice mentions the **references** of the files.
3. The fact that the FAMHP does not use **Purchase Order (PO) numbers** is not a valid reason not to pay an invoice..
4. You always receive the invoice on the **invoice address**. In the cover letter at the introduction of the advice request you can mention your email address for invoicing.
5. Have you already paid a **fee** for a recent advice request? Send an email to refund@fagg.be to ask for a refund of the fee.
6. **Any bank fees** for payments from abroad are never at the expense of the FAMHP. These fees are to the account of the payer.
7. If the submitter **withdraws** a STA request after its validation, the fee is due all the same.
8. If, at the end of the validation phase of the procedure, the FAMPH declares a formally submitted STA request “**invalid**”, no fee is due.
