1: **Liable** The actors that makes available of medical devices to retailers and/or end users, in accordance with article 14/2 and annex I.1 of the aforementioned law of 20 July 2006. An end user is defined by article 2, § 1, 20° of the aforementioned law of 20 July 2006 as « any natural or legal person, other than a distributor, who uses a medical device in the context of his professional activities ». Retailers, as defined in article 2, § 1, 19°, of the aforementioned law of 20 July 2006, remain exempted from this tax. A retailer is defined as: « any natural or legal person who supplies devices to consumers, namely any natural person who acquires or uses devices exclusively for non-professional purposes ». For actors who carry out retail activities, but also supply medical devices to retailers and/or end users, the latter activities remain subject to the tax. Only their retail activities are exempt.

2: In overeenstemming met artikel 14/2 en bijlage I.1 van de wet van 20 juli 2006 betreffende de oprichting en de werking van het FAGG.

Foreign companies: the contribution is due for actors located abroad carrying out at least one activity subject to contribution on Belgian territory. You must communicate the turnover concerning the making available of medical devices to retailers and/or end users on the Belgian territory.
